About Us

STARLIGHT is a non-profit, social impact organization entrenched in 2020 working with like minded youths for children and mostly girls with a clear goal to change the lives of unprivileged children in our nation. To strengthen the foundation of a progressive nation with a vision of an equal and inclusive world where every child is educated, healthy and safe by looking forward illiteracy, poor health condition and eradicating hunger from its root cause and social taboos on menstrual hygiene. The main objective is to empower and provide Nutrition, Healthcare and primary Education to the flourishing buds devoid of such facilities and molding them into a better mobile reformer of the community.

Vision

STARLIGHT was enacted with an aim to bridge the gap between the Education and Employability among the unprivileged children and gear up every child who is deprived of Nutrition, Education & Healthcare by providing them the basic necessities which would help to nourish them further.

Mission

Empowering a happy, healthy and creative child to stand up for themselves by protecting and safeguarding their rights and honor in the society. Access to knowledge and opportunities to unlock their POTENTIAL so that they can in turn assist others in the community with their own human potential and well-being.

From the Founder's Desk

As we step into the new financial year, we look back at what has been achieved and where we need to do better and more of. The world that we are used to, changed in many folds in the COVID-19 era. At one end, we experienced the pain of losing our loved ones and at one end, experienced the unheard resilience of communities to bounce back to do better.

2021-22 has been an exceptionally challenging year for everyone; it has been a time of debilitating uncertainty and chaos. STARLIGHT has been growing from strength to strength, gradually leaving its footprints and impact. Our COVID-19 resilience project championed our efforts bringing into the vaccination program by collaborating with the UNICEF to vaccinate over 2000+ people in socially backward sections of the communities.

For us at STARLIGHT, 2021 was a year of reflection as we challenged our perception of boundaries and capabilities to push ourselves toward making bold commitments to work with and for child. Thanks to our Partners, Supporters for their immeasurable contribution towards the organization to create a better impact. Our story is imperfect without the mention of our volunteers who work effortlessly and supported us with materials, time, efforts and hard work.

As the proverb goes, it takes a village to raise a child. A country so vast, with the world's youngest population living in it, needs many hands to steer. The children are not just its demographic dividend but also future leader and change makers. I take this opportunity to extend my gratitude for everyone who stood by us in these difficult times and motivated us to move forward towards our commitment, as the children have the potential to build a better future for humanity.

Education Kits Distribution

Commendable work is being done in the social sector by Starlight Foundation, As an NGO tremendous work is being done by the team of Starlight to remove malnutrition, providing free education and to make people aware of vaccination during Covid-19 . All the members of the organization deserve Congratulations for the work done.

It is a pleasure that our young generation is moving forward in creative works. In the present time, our young generation is indulging in bad works except doing social work, in such a time it is really a commendable work by Starlight Foundation to make youth aware of social work. Our youth should be taught values of our culture . The young generation is going in the wrong direction because of not getting proper knowledge of cultural values .

Good manners make a good personality, education is necessary but it has nothing if you don't have good manners. To become a good person, it is necessary to be educated & well mannered. I request all the parents that you should teach your children about culture from the beginning, so that the young generation can go in right direction.
